## Super Shakers

**Dependable, low-cost scrap removal solution.**

Engineered to accommodate any machine requiring scrap removal.

- CNC machined from 6061 Billet aluminum with the most reliable internal components.
- The pneumatic operating units cover a wide range of applications. With four sizes to choose from: starting with our single tray 100 lb. capacity shaker to our Boss Hogg with 1,200 lbs. capacity and multi tray abilities.
- Our modular systems allow the customer to choose as much or as little support for their individual application. We offer custom size tray beds, cross bars and cross bar supports.
- Manufactured, assembled and serviced at our facility in Grand Rapids, Michigan.
- 1-Year Warranty on parts and service.

Let Super Shakers from Grand Rapids Machine Repair be your simple, reliable, cost-saving solution for all your scrap moving needs.
